SUMMARY

Full-stack SDE with production experience across **edtech, fintech, and AI-powered SaaS platforms**. Proven track record shipping features at scale from MongoDB Atlas search pipelines handling **400k+ of documents**, to React frontends serving **30K+ daily active users**. Ranked #1 in college on GeeksforGeeks; looking to leverage end-to-end product engineering skills at a high-growth team.

WORK EXPERIENCE

SDE Intern, Pulsegen

(Hyderabad) | Feb 2026 – Present

- Engineered a MongoDB Atlas Search **autocomplete pipeline** with **3-tier scoring** (exact → prefix → fuzzy), improving account search precision for a multi-tenant SaaS platform serving **400K+ accounts**.
- Designed and implemented a **7-level user adoption tracking system** (L1–L7) with **O(U)** batch fetching, background cron jobs, and Change Stream architecture; cut DB round-trips by **~80%** vs. **naïve per-user polling**.
- Developed **RBAC, onboarding, notification preferences**, and **adoption email workflows**; contributed to **MCP** integration in a highly **virtualized** app rendering **100K+ elements/page**.
- Resolved **84 tickets (features + bug fixes)** and **57** circular dependencies (barrel import cycles)

SDE Intern, MathonGO

(Bengaluru) | July 2025 – Jan 2026

- Built and optimized **Leaderboard, League, and Horoscope** modules for **GetMarks**, improving state management and API efficiency for **1L+** weekly rank updates.
- Led the **NEET v2 revamp**, enhancing data flow, caching, and UX, driving a **300%** rise in daily NEET aspirants.
- Integrated the **Courses (LMS)** module into **GetMarks** with persistent state and modular design, to support **30K+** daily active learners on launch.

Full stack Developer, Capco-cs

(Remote) | Dec 2024 – May 2025

- Built a full-stack web app with a **custom CRM** and React.js + Supabase **vendor portal**, improving client management by **30%** and vendor onboarding by **25%**.
- Integrated a **Gemini-powered chatbot** to automate user support, reducing response time by **90%**.

Tech Lead, E-CELL MJCET

(Hyderabad) | Sep 2024 – Jul 2025

- Led a 5-member team to build E-Cell MJCET's hackathon platform (Next.js), driving **500K+** visitors, **127+** daily registrations, and **440%** growth (**30K** users).

EDUCATION

Bachelor of Engineering (B.E) - Computer Science

September 2022 - April 2026

- Muffakham Jah College of Engineering and Technology || **Relevant Coursework:** CS & AI

PROJECTS

AiResumate

- Co-founded and shipped an **AI resume** platform (Next.js) integrating **Gemini AI, OpenAI GPT, and Claude** for real-time resume scoring, rewriting, and ATS optimisation.
- Implemented secure payments via **Cashfree**; deployed on **Vercel** with high availability and zero-downtime releases. Reached **1,000+** visitors and **\$150+** revenue in the first month of launch.

LaunchPad — Startup Networking Platform

- Built a Twitter-like startup networking platform using **.NET Core, React.js, PostgreSQL, and SignalR** with real-time feeds, founder profiles, and live interactions. Optimized scalability using **JWT authentication, Redis caching, and modular backend architecture**.
